

ALPS Proximal Seal Interface Liner (PSI)

Liner

Supplier:

ALPS South Corporation

Features & Benefits:

- Unlimited restriction of stretch on the proximal portion of the liner where there is no fabric
- External gel portion allows the sleeve to seal on the liner
- Terry fabric located distally to act as an air wick
- Works well with elevated vacuum systems currently available on the market

Specifications:

- Made of ALPS Easygel
- Thickness available: 6 mm, uniform
- 8 sizes available (see order chart)
- Measurements taken 6 cm from the distal end

Indications:

- Transtibial amputations

Call Points:

- Prosthetist
- Prosthetic technician

Warranty:

- 12 months on a single and 24 months on a pair, against manufacturers defects

3008
