Dynamic AFO

Supplier:

Allard Inc.

Features & Benefits:

- Extra stability — offers more orthotic control while improving balance and posture in the patient
- Comfort — absence of material at the back of the orthosis avoids contact with sensitive areas
- Easy to don and doff — two straps
- Four point fixation/force principal for maximum leg stabilization and control
- Full coverage anatomically shaped anterior tibia shell for maximum stabilization and control
- Short strut “wraps” over instep for maximum medial-lateral and rotation control of the foot and ankle complex
- Open heel design allows the heel to shift from eversion to inversion
- The anterior plate assists with knee extension at the mid-stance phase of gait
- Customizable — can be fit by cutting, grinding and adding required foot orthotics or padding

Specifications:
