

## Gypsona® Plaster of Paris Cast Bandages Casting Impression

### Vendor:

BSN Medical Inc.

### Features & Benefits:

- Made from specially woven leno cloth uniformly impregnated with plaster of Paris
- Leno cloth has an interlocked weave that helps minimise plaster loss
- Fast-setting plaster of Paris used ensures fractures can be rapidly immobilised
- Bandage is spooled on a round core for ease of handling of wet bandage on wider sizes
- Moisture proof packaging—each bandage is packed in a splash-proof flow wrap
- Gypsona® LPL is designed to be squeezed firmly to remove more moisture from bandage without plaster loss
- Latex free

### Specifications:

- Setting time: Use clean water (22–25°C). Cold water retards setting time. Hot water will hasten initial set
- Use: Immerse bandage in water at 45° slant for 3–5 seconds only
- Approximate initial setting time 2–3½ minutes for LPL-4 and 2–2½ minutes for LPL-2

### Indications:

- External circumferential immobilisation of fractures
- Emergency trauma splinting
- Total contact casting, diabetic feet

### Contraindications:

- Caution: exotherm reaction of the plaster during the setting phase can generate heat—avoid direct contact with the skin or damage may occur

### Call Points:

- Emergency department
- Fracture clinic
- Orthotic technician
- Prosthetic technician

### Warranty:

- Against manufacturer defects
