## COMPANY PROFILE

Founded in 1981 by Canadian orthotists and Canadian owned again since 2003 — our Canadian ownership and management assures that we keep our focus on the real needs of practitioners across Canada. OrtoPed is active across the Canadian P&O professions and we manage our business to meet the specific requirements of each distinct Canadian region.

## SOFT

ERIMED

# Dictus Band

ER-530200-xx (xx = LG, MD, CH)

The Dictus Band lifts the foot immediately after toe off. This reduces the risk of tripping over everyday obstacles such as doorsteps and carpets.

### Features and Benefits:

- Discreet
- Fits easily on any lace-up shoe
- Flexible — uses recoil action with the rubber band and hook
- Design helps raise the foot after toe off, reducing the risk of tripping
- Easily cleaned with just a damp cloth
- Suitable for children

### Specifications:

- Ankle strap consists of two layers of leather, closed and tightened with Velcro straps
- Available in 4 sizes and 2 colors (see table)

### Indoor use

DESCRIPTION	COLORS	SIZE INCH	SIZE CM
<input type="checkbox"/> Ankle strap, adult X-large	Black or tan	> 10 ¼"	> 26 cm
<input type="checkbox"/> Ankle strap, adult large	Black or tan	7 ⅞" – 10 ⅞"	20–27 cm

<input type="checkbox"/> Monohook / each	Black or tan	
<input type="checkbox"/> Spring steel hook / pair		
<input type="checkbox"/> Plastic hooks / pair		

### Outdoor use

The Dictus Band takes limited room in the shoe, is discreet and fits easily on any lace-up shoe.

## DYNAMIC

# The ToeOFF® Family

## Orthotic Solutions to Manage Foot Drop & Ankle Instability

ToeOFF is the original dynamic response floor reaction ankle foot orthosis and is now recognized as a quantum leap in A.F.O. technology. Walking can become more stable, fluid, propulsive and symmetrical as the appearance of a limp decreases, energy expenditures decrease and distance capacity increases. In addition to being able to walk further without tiring, wearers love the ultra thin and ultra lightweight benefits of these carbon composite A.F.O.s.

ALLARD

### KiddieGAIT™

AL-28372x01x

**KiddieGAIT™**  
Available in three  
baby sizes!

BABYSMALL  
BABYMEDIUM  
BABYLARGE

### ToeOFF®

AL-28375x01x

#### ToeOFF®

- For mild to severe foot drop with mild to moderate ankle instability and spasticity
- Moderate four point fixation/force principle
- Full coverage anterior tibia shell
- Short strut "wraps" over instep
- Medium ankle stability

### Ypsilon™

AL-28400x01x

#### Ypsilon™

- For isolated or mild to moderate foot drop
- Three point fixation/force principle
- Tibia crest clearance
- Strut extends lateral to instep
- Maximum ankle freedom

### BlueRocker™

AL-28405x01x

#### BlueRocker™

- For moderate to severe foot drop, ankle instability and spasticity
- Four point fixation/force principle
- Full coverage anterior tibia shell
- Short strut "wraps" over instep
- Maximum ankle stability

Give toddlers an orthosis that will allow their little feet to move in a more fluid and natural biomechanical gait pattern. Pediatric gait poses special challenges. Now, KiddieGAIT offers innovative options that have never been available for A.F.O. management of these challenges. Functional environments can be created that supplement gait function instead of immobilizing and inhibiting that function.

- Designed to allow integration of your custom foot orthotic to help control ground-up forces
- Lateral strut can also serve as a base to affix a T-Strap to control excessive eversion at the ankle
- Anterior shell to assist in management of proximal deficits by helping to overcome either knee hyper-extension or crouch gait

AL-2878x001x

### COMBO

#### COMBO

- Management of genu recurvatum or chronic knee instability, accompanied with footdrop
- Low profile and lightweight
- Can be fabricated onto ToeOFF® or BlueRocker™ within an hour
- Uprights easily shaped and adjusted to optimum height for patient
- Modular components allow you to accommodate variances in thigh and calf circumferences
- Easy to don and doff when patient is resting

## DYNAMIC

### The Dynamic Walk

DF-700111xxx

CENTRI (FILLAUER)

#### High Activity Design...

... enables freedom of motion and the ability to walk, run, and climb stairs without the need for straps, and fits easily into most everyday shoes.

The Dynamic Walk Orthosis is made of a lightweight heat moldable carbon fiber composite material. The open heel design allows for optimal fit and comfort. Utilizing medial and lateral PEEK rods for active flexing, Dynamic Walk provides dorsi-assist with subtalar inversion and eversion control.

- Lightweight
- Open heel
- Fits easily into most everyday shoes
- High strength
- Flexible
- Lateral stability
- Dynamic movement
- Flexible calf band

#### Sizes:

Small, medium and large; Regular and wide; Left and right. Single side available in medial or lateral sides.

#### MEASUREMENT CHART

SIZE	LENGTH	HEIGHT	WIDTH (REG.)	WIDTH (WIDE)
Small	230 mm	320 mm	67.5 mm	72.5 mm
Medium	250 mm	340 mm	72.5 mm	80.5 mm
Large	270 mm	370 mm	80.5 mm	88.5 mm

## RIGID

### A.F.O. Ankle Foot Orthoses

ORTHOSERVICE

#### Standard

OP-9050-xx

Injection-moulded polypropylene for different thickness.

- Removable-washable soft laminate calf padding
- Contact closure calf strap
- May be heat modified for minor fitting

#### Sizes:

Small, medium, large and X-large

#### Extra Strong

OP-9055-xx

Made with reinforced polypropylene to provide more stability.

- Additional "instep" strap for improved fit
- Removable-washable soft laminate calf padding
- Contact closure calf strap
- May be heat modified for minor fitting

#### MEASUREMENT CHART

SIZE	SHOE SIZE (EURO)	HEIGHT
Small	35/39	280 mm
Medium	40/43	290 mm
Large	41/44	340 mm
X-Large	>44	390 mm

## HEALING

# CROW Walker

ST-CROWWALKER

The CROW (Charcot Restraint Orthotic Walker) combines an ankle foot orthosis and a custom boot for the treatment of foot ulcers, diabetes mellitus and charcot foot.

- Completely restricts foot and ankle movement
- Clamshell design that covers the entire foot
- Custom fabricated to meet the individual needs of the patient
- Padded for patient comfort

SPINAL TECHNOLOGY INC

Visit our  
Web site for custom  
ordering forms

www.ortoped.ca

## IMMOBILIZING

### PQ Leg Walker

PQ-17000x

ORTOPED

Knee-length and Ankle Length Short Leg Walkers, fixed, malleable uprights provide custom fit ensuring stability.

- Lightweight, low profile construction provides comfortable stability
- Universal—fits left or right foot
- Skid resistant rocker sole
- Breathable liner

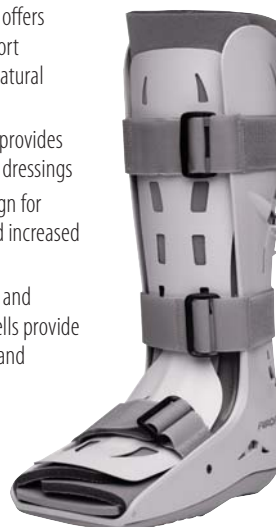

### Aircast® FP Walker™ (foam pneumatic)

DJO-01F

DJO

The FP Walker provides full-shell protection with pneumatic support.

- Low rocker sole offers enhanced comfort and promotes natural ambulation
- Wide foot base provides ample room for dressings
- Ergonomic design for ease-of-use and increased compliance
- Semi-rigid shell and adjustable air cells provide secure support and protection

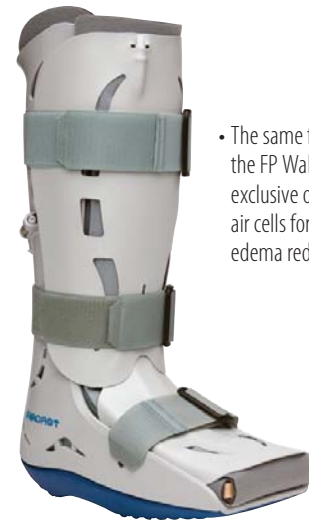

### Aircast® XP Walker™ (extra pneumatic)

DJO-01P

DJO

The FP Walker provides full-shell protection with pneumatic support and overlapping air cells.

- The same features as the FP Walker plus exclusive overlapping air cells for superior edema reduction

## IMMOBILIZING

### AirVantage Short Pneumatic Walker

EO-T710xx

ELITE ORTHOPAEDICS

Featuring a newly designed easy to use leak resistant pump system and a wider foot bed providing comfort and more room for patient dressings.

- Pneumatic, washable lining contains medial and lateral air cell system
- Twist control valve that allows for easy inflation and deflation for controlled compression of lower leg

### Body Armor Walker II

DAR-BATxx

DARCO

The Body Armor II provides unparalleled protection, compression and immobilization for foot and ankle conditions where ambulation is permitted.

- Multi-density insole system for pressure relief (off loading ulcers, fractures and pressure points)
- Locking clips assure even circumferential pressure, side channels hold straps in place
- Rocker sole assists patients through gait cycle
- Breathable built in liner
- Flexible upper

Low-profile version

### Advantage II Standard Ankle Walker

EO-T300x

ELITE ORTHOPAEDICS

Featuring durable aluminum uprights and increased Velcro surface area for greater stability.

- Wider foot bed provides comfort and more room for patient dressings
- Low heel height and rocker sole facilitates normal gait pattern
- Cool breathable double laminated soft good
- Hook and loop straps offer easy application and removal

### Rebound Air Walker

JM-B-2429x

Featuring a host of details designed to provide added protection, superior compression, simplified application and usage, improved comfort and, ultimately, successful patient outcomes.

- Integrated air pump provides easy inflation/deflation and consistent compression
- Front placement straps allow for easy donning and doffing
- Flex Edge overmold adapts to the anatomy and relieves pressure points
- Walker shell accommodates to fit more calf sizes

Photo courtesy of Ossur Americas (www.ossur.com)

### Articulating Walker

OSSUR

CAR-SL1201-xx

DEROYAL

For Achilles tendon repair; moderate to severe ankle sprains and strains; stable foot and ankle fractures; post ORIF.

- Low heel height helps to prevent external hip rotation and to promote normal gait
- Adjustable hinge at ankle joint for positioning
- Tri-radiate sole promotes natural gait
- Flat foot bed keeps foot in neutral position and mimics casting

## POSITIONING

### Body Armor® Night Splint

DAR-NSxx

DARCO

The only night splint on the market today that actively engages the windlass mechanism of the foot resulting in a specific and sustained stretch to the plantar fascia and a sustained low load stretch to the flexor tendons, Achilles tendon, and calf muscles.

- Toe Strap
- Elastic Connector Ring
- Low Profile Design
- One-size-fits-all Design

### Multi-Use Boot

LG-MUA

LEEDER

The Multi Use Boot with Flex-E-Core Technology is easily adjustable, has the softest interface available, and offers dorsiflexion straps for precise adjustment; easily custom fit to the patient's exact size.

- Flex-E-Core ferro-plastic composite allows custom fitting without tools or heat
- Simple to adjust for any condition

### Plantar Fasciitis Splint

EO-T580xx

ELITE ORTHOPAEDICS

Designed to provide continuous gentle stretching of the plantar fascia and achilles tendon.

- Light weight design and low profile shell provides patient comfort while sleeping
- Soft, removable, washable foam liner provides breathable interior
- Dorsiflexion easily adjusted using medial and lateral hook and loop closures
- Removable 5° forefoot wedge provides additional stretching

### Pneumatic Night Splint

DAR-NSxx

DARCO

Features a fully-integrated inflation/deflation system that can be easily operated with one hand. The internal air bladder is infinitely adjustable so every wearer can find the degree of dorsiflexion that works best for them. The natural cotton terry liner absorbs moisture and ensures a cool, comfortable fit.

- Integrated air system that can be easily operated with one hand
- Internal air bladder is indefinitely adjustable, allowing a wide customizable degree of dorsiflexion for the patient

### UFO™ Night Splint

OR-3619

ORTHOMERICA

Universal Plantar Fasciitis Orthosis [UFO™] incorporates the best features of other plantar fasciitis splints.

- Adjustable bilateral dorsiflexion assist strap applies a low load prolonged stretch
- Coolfoam replaceable liner wicks moisture away from the skin
- Non-Skid pad included

### Pediatric UFO™ Night Splint

OR-3614

ORTHOMERICA

The pediatric UFO™ is a comfortable, prefabricated orthosis for stretching and maintaining dorsiflexion range of motion.

- Comfortable
- Universal
- Positions the foot and ankle in optimal alignment for stretching the soleus while patient is sleeping

## POSITIONING

### Heelift® Suspension Boot

ALIMED

#### Convoluted

AM-62884

#### Smooth

AM-63261

- Effectively removes pressure from the heel
- Calf rests in pressure-reducing foam
- Patented elevation pad disperses pressure evenly across entire calf

### Contracture Boot

LG-LBMR

LEEDER

Simplicity of design (no straps), strength and safety (KYDEX), and stable ambulation platform (large and reinforced with KYDEX).

- Made of KYDEX to adjust to patients' specific needs
- All with universal sizing; no straps
- Anti-rotation bar and toe post included
- Optional transfer sole
- Easy don/doff

## HealPRO™

OR-353x

ORTHOMERICA

A cost-effective foot and ankle positioning orthosis designed to unweight the heel and protect the foot from potential ulcers and/or loss of dorsiflexion range of motion. This unique design reduces pressure on the toes from bed linen to facilitate comfort and protect the skin.

- Soft CoolFoam liner with finished edges and wrap around proximal trim line to reduce calf pressure
- Dual foot and calf Velcro closures with easy opening tabs to facilitate independent donning and doffing
- Heel offset reduces heel pressure in supine position
- Internal or external rotation control with 90° stop
- Rubber threaded sole to enhance safety
- Toe lift facilitates clearance in swing phase during ambulation
- Extended foot plate protects toes from bed linens and prevents contractures
- Universal — fits left or right foot
- Liner is easy to remove and re-apply for cleaning

Adjustable Abductor Bar links to HealPRO when abduction control is required.

Internal or external anti-rotation device with a 90° stop.

## ALIGNMENT

### OAK Knee Orthosis

Orthosis (DF-0242xx)  
Joint (DF-0239xx)

FILLAUER

#### Feel the free-glide difference with the new OAK Orthotic Knee Joint!

The OAK (Osteo-Arthritis Knee) polycentric orthotic knee joint has been engineered to provide motion that better approximates normal physiologic knee movement for use in a custom osteoarthritic knee orthosis.

- Helps conserve energy and reduce knee pain
- Patented 30° valgum and 6° varum adjustment
- Volumetric high compression and popliteal suspension
- Anatomic fit for increased comfort and support
- Geometrically aligned to open medial compartment
- Thermoplastic or Comfil Thermo Formable Carbon composite cuffs

### Post Operative Knee Brace

EO-K8102x

Designed for post operative immobilization and controlled range of motion after knee ligament surgery.

- Quick dial adjustable flexion and extension ROM control
- Flexion/extension stop sets at 10° increments
- Simple to use drop lock function
- Universal brace can be adjusted to provide greater patient comfort
- Adjustable medial/lateral support paddles to increase length of brace and keep strap away from suture site
- Helps distribute compression evenly
- Washable lining

ELITE ORTHOPAEDICS

### T1 Trainer Ankle Brace

AA-03

ACTIVE ANKLE

- Durable quick fitting single strap system
- Bilateral hinge allows freedom in motion
- Velcro fastening strap can be adjusted by sliding up or down for both high & low top shoes
- Thin feather-light E.V.A. padding
- White heel pad

### T2 Active Ankle™ Ankle Brace

AA-T2

ACTIVE ANKLE

- Durable quick fitting single strap system
- Bilateral hinge allows freedom in motion
- Velcro fastening strap can be adjusted by sliding up or down for both high & low top shoes
- Thin feather-light E.V.A. padding
- White heel pad
- 18% lighter than T1

## SUPPORT

### Ankle Lok® Ankle Support

SW-212xx

SWEDE-O

The Ankle Lok has been proven effective in numerous independent clinical studies. It has been utilized by athletes and patients for over 30 years to help prevent ankle injuries.

### Easy Lok™ Ankle Support

SW-013

SWEDE-O

The adjustable closure straps make this brace easy to use. Simply slip on the brace, secure the straps, and enjoy excellent ankle support. The brace is ideal for arthritic patients and those who have difficulty securing a traditional lace-up style.

### Strap Lok® Ankle Support Brace

SW-021

SWEDE-O

The Strap Lok features figure-eight straps that mimic a professional taping procedure. It is made of a ballistic type of nylon material that fits comfortably in your regular shoe. Heavy-duty top strap locks the figure-eight straps in position for a much more secure fit.

### A30 Wooten-UHL (5-in-1)

NOS-A30

NEW OPTIONS SPORTS

- Relieve heel pain through counter force pressure applied on the Achilles tendon
- Can treat several ailments
- Removable "horseshoe" pad to target area of pain or discomfort

### A5 Stabilized Ankle Support

NOS-A5

NEW OPTIONS SPORTS

- Trimmable figure 8 strapping locks calcaneus in place
- Full circumferential elastic strap
- Removable plastic medial/lateral stays
- Low profile—fits easily into athletic or street shoes
- Lightweight
- Lace-up design
- Universal—fits right or left

### A8 Ankle Brace with Air Gel Bladder

NOS-A8

NEW OPTIONS SPORTS

Features a rigid thermoplastic shells with adjustable heel strap to help prevent universal/eversion.

- Air/Gel bladder can be used for cold therapy
- Two circumferential straps riveted to shell
- Air/gel bladders contain entrapped air in top half of bladder and gel on bottom portion

## WOUND CARE & HEALING SHOES

### GloboPed® Heel Relief Shoe

BF-6224901x

BAUERFEIND

The GloboPed Shoe is a ready-made heel relief orthosis for targeted relief of the hind foot or the heel for postoperative and post-traumatic foot conditions.

- Reduced convalescent time
- Two Velcro closure straps for optimal fit
- Universal — left or right foot
- Soft inside lining with no seams
- Heavy-duty and lightweight
- Early patient mobility
- Anti-microbial
- Washable

### GloboPed® Forefoot Relief Shoe

BF-C230900x

BAUERFEIND

Off-loading shoe helps shorten convalescence time, minimizes post-operative edema and promotes earlier mobility. 10° dorsiflexion completely eliminates weight bearing of forefoot.

### Wound Care Shoe System™

DAR-WCSxB

DARCO

The ultimate for off-loading foot lesions to permit healing of diabetic foot ulcers and infections. The deep rocker sole contains four layers of differing density insoles that may be altered for off-loading. Leather upper lined with Plastazote material.

### SlimLine™ Cast Boot

DAR-SLQ xx

DARCO

Can be adapted to fiberglass casts, bulky compression bandages and a variety of wound care applications, making it one of the most versatile cast shoes on the market.

## WOUND CARE & HEALING SHOES

### HeelWedge™

DAR-HQxB

Off-loads the heel by shifting weight to the mid foot to promote faster healing after surgery, trauma, or when wounds are present on the heel. The square toe design provides more room in the toe box for a better fit.

DARCO

### OrthoWedge™

DAR-OQxB

OrthoWedge Shoe has been clinically proven to effectively reduce weight bearing pressure from the forefoot to promote proper healing.

DARCO

### APB™ All Purpose Boot

DAR-APQxB

APB All Purpose Boot all-season closed toe protection allows dressings to be kept clean and toes dry while wider sole and deep opening gives more room to accommodate large dressings, bandages and casts.

DARCO

### Med-Surg™

DAR-MQxxN

Med-Surg Shoe has a strapless forefoot closure which eliminates buckle pressure on the forefoot and can expand to accommodate dressings up to 17" in circumference.

DARCO

### Blue Med-Surg™ Shoe

DAR-MSMx & DAR-MSWx

DARCO

The Original Med-Surg™ Shoe

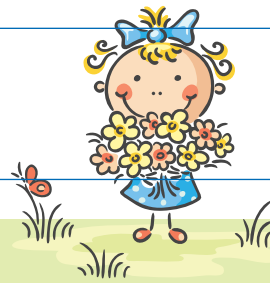

The Darco medical-surgical shoe is the shoe that started it all. Darco's original MedSurg shoe was invented over 25 years ago and has since become known as the industry standard. Often referred to generically as "the Darco shoe," it is anything but generic and its long list of features and excellent quality make it one of the best values in the business.

- Patented metatarsal shank: provides superior control of forefoot motion to ensure post operative healing remains undisturbed
- Better protection after osteotomies
- Reinforced Padded Heel: grips the foot and reduces slippage
- Breathable Mesh Upper: Light weight material allows for proper ventilation and conforms to bony abnormalities
- Extra Long Straps: accommodate even the bulkiest dressings

## ORTHOPEDIC SHOES

### Children's Athletic Shoes

KeepingPace is a children's orthopedic company created by parents of special needs children who understand the daily life challenges within a special needs family.

- Easily customizable depth
- Durable, lightweight and comfortable
- Eyelets on Lace-Up model promotes one-handed pull lacing and keeps laces locked in place
- The double Velcro strapping on Velcro models promotes easy donning
- Wide opening for easier foot insertion with a custom orthosis or A.F.O.
- Distinctive sole with wider tread design increases direct surface contact and promotes medial/lateral stability
- Inner sole has three varying thicknesses, allowing for easier internal adjustments
- Wider, deeper heel and toe box
- High abrasion-resistant rubber toe cap and reinforced triple stitching for increased durability

## DIABETIC SOCKS, A.F.O. & K.A.F.O

### Seamfree™ Silver Diabetic Socks

CS-SFx

COMFORT PRODUCTS

- Seam-free design reduces irritation
- Non-binding turned top
- X-Static silver naturally eliminates odor causing bacteria and helps prevent dermatitis, athlete's foot and fungus
- Cooler in summer and warmer in winter
- Wicks moisture away and provides a healthy environment for the foot

### SmartKnit® A.F.O. & K.A.F.O Interface Socks

KR-1SP1-xx-xx KR-1SX1-AF-xx KR-1BX1-xx-xx

SmartKnit A.F.O. and K.A.F.O. Socks. Seam-free, wrinkle-free sock that fits like a second layer of skin, provides exceptional softness, and wicks perspiration. In addition, each sock features a "heel-less" design to ensure a perfect fit every time.

- Patented Seam-free design to reduce irritation
- Non-binding turned top
- X-Static silver naturally eliminates odor causing bacteria and helps prevent dermatitis, athlete's foot and fungus
- Thermal properties of silver provides additional comfort; cooler in summer and warmer in winter
- Wicks moisture away and provides a healthy environment for the foot

KNIT-RITE

Infant, Child, Youth, Adult Sizes

### A.F.O. Liner Sock

CS-AFOLSBxx

COMFORT PRODUCTS

- Mix of 85% combed cotton and 15% nylon
- Cotton is plated and is next to the skin for additional comfort
- Accommodates most individuals from foot to knee allowing the sock to be rolled over the top of the orthosis, helping the sock stay up all day long

### SmartKnit® Seamless Sock

KR-7x

KNIT-RITE

- Anti-bacterial and thermodynamic
- Non-binding elastic band-free top
- Made of high stretch core spun yarns with X-Static fibers
- Soft stretch in every direction
- Latex-free

### SmartKnitKIDS™ Sensitivity Sock

KR-82x

KNIT-RITE

- Core-spun yarns with Lycra and form-fitting "heel-less" design
- Micro-Cool treated giving moisture wicking and antimicrobial properties
- Super soft, seamless and latex-free

### SmartKnit® Hallux Soccus™

KR-1BT1-AF-x

KNIT-RITE

- Separated great toe to accommodate A.F.O. toe straps, etc.
- Soft, seamless and wrinkle-free
- Wicks moisture away
- Made with white anti-microbial treated CoolMax fiber (97.3%) and Lycra (2.7%)

(Big Toe Sock)

### Therasock® Care Sox Plus

KR-11x

KNIT-RITE

A wide crew sock designed for those with serious edema or larger extremities, these ultra soft crew socks stretch up to 23" in circumference. Care Sox provide extra padding for pressure relief.

For larger feet

### Therasock® Comfort System Plus

KR-5x

KNIT-RITE

Extra padding and a seamless interior make these special extra-cushioning socks a great choice for people with diabetes, arthritis, and foot pain.

Maximum padding

### Therasock® Comfort System Lite

KR-4x

KNIT-RITE

These specially designed socks combine comfort and protection in a lightly padded sock, while Therasock's exterior seam design protects sensitive toes from irritation.

Light padding

### Therasock® Double Sock System

KR-2x

KNIT-RITE

This unique "sock-within-a-sock" design helps protect sensitive feet from colored dyes, additives, friction and shear. The white inner liner is dye-free. The two sock layers work together to absorb the friction and shear that normally irritates sensitive skin.

## INSOLES

### Woolen Insoles

OP-98xx

ORTOPED

Made of pure, untreated merino wool

- For people with diabetes
- Positively affects blood circulation
- Absorbs wetness
- Insulates against cold and damp
- Insole has a fine line of silicone on backside for stability
- Comes in 25 sizes

### The Peg-Assist™ Off-Loading System

DAR-PTQxx

DARCO

Removable pegs off-load pressure from any area of the foot's plantar surface.

- For the treatment of diabetic ulcerations
- The perfect combination of shock absorption and moldability
- Removable toe cover helps the forefoot remain clean, dry and free of foreign objects
- Provides short-term pain management for patients suffering due to bony abnormalities
- Poron cover eliminates ring edema and assists support

### TAS™ Toe Alignment Splint

DAR-TAS

DARCO

A cost-effective solution that provides superior post operative toe alignment after Hallux Valgus, Hammer Toe and Tailor's Bunion procedures.

- Low profile metatarsal band fits easily into most footwear and reduces slippage
- Soft toe straps will not irritate skin
- Special T-Strap gently guides toe(s) into proper alignment for post-procedural healing
- One size fits all
- Latex free

### ShearBan®

BO-749-x

TAMARACK

ShearBan is a patented ultra-thin, low friction interface material, proven to relieve skin trauma caused by damaging friction forces.

- Manage friction quickly and easily
- Pre-cut ovals designed especially for diabetic foot care or 9" x 12" sheets available in single or 5-pack
- Self-adhesive

CAN MAKE IT  
GREAT!™**  
*...FOR YOUR PATIENTS*

CHOOSE ORTOPED  
A CANADIAN-OWNED COMPANY

OrtoPed—a Canadian tax payer,  
and a provider of support and education  
to Canadian health care professionals.

Founded in 1981 by Canadian orthotists  
and Canadian owned again since 2003.

We are committed to bringing you real and measurable  
value, product availability, competitive pricing, accurate  
handling of your orders and a prompt resolution of any  
issues you bring to us.

Our Canadian ownership and management assure you  
that OrtoPed remains focused on your needs for the best  
adapted products
