

## Small Air-Lock Lock

### Supplier:

Coyote Design & MFG Co.

### Features & Benefits:

- Features a suction valve inside lock, eliminating air from entering the socket
- Waterproof
- Lightweight
- Completely replaceable locking mechanism
- Easier to engage than most locks
- Construction reduces wear because acetyl is self-lubricating

### Specifications:

- Weight: 50 g
- Max clearance: 1 $\frac{7}{8}$ "
- Single lamination fabrication
- Acetyl construction
- Patient weight: Rated to 100 kg (220 lbs) in laminated sockets
- Not recommended for definitive thermoformed sockets

### Indications:

- Ideal for any activity level
- Can be used for laminated or definitive thermoformed sockets

### Contraindications:

- Total weight exceeding rated limits

### Call Points:

- Prosthetist
- Prosthetic technician

### Warranty:

- Against manufacturers defects

27E8

Item No.	Description
COY-CD103S	Small Air-Lock with lock pin
COY-CD103P6	Lock pin assembly (1.3") (includes 6 mm and 10 mm adapter)
COY-CD103P9	Long lock pin assembly (1.6") (includes 6 mm and 10 mm adapter)
COY-CD103PFF	Fast 4-Hole Connector (connector typically used in test sockets) <i>(available in pediatric sizes)</i>
COY-CD103PAF	Aligned 4-Hole Connector (connector used in final socket to separate pin and prosthetic alignments) <i>(available in pediatric sizes)</i>
COY-CD103WH	Lock Wrench (for assembly of locks — equivalent to 13 mm deep well socket)
