

» Static-Pro® Wrist

Wrist orthotic

Supplier:

DeRoyal Industries Inc.

Features & Benefits:

- Mimics manual therapy by using the high load brief stretch (HLBS) modality
- Lightweight frame features foam liner that is soft and absorbant
- Flexion or extension achieved easily with turn of a knob
- Designed to assist in either flexion or extension in one unit
- Lightweight, low-profile design
- Malleable Wire-foam™ cuffs can be trimmed for a customized fit

Specifications:

- Universal size
- Air-dry liner and straps prior to wearing
- Straps and blue liner may be machine-washed
- Clean Wire-foam™ pads and exterior of hinge with non-abrasive cleaner
- Liner can be replaced

Indications:

- Joint stiffness of the wrist
- ROM limitations
- Soft tissue contractures

Contraindications:

- Severe spasticity
- Severe osteoporosis
- Thrombophlebitis

Call Points:

- Orthotist
- Orthotic technician
- Occupational therapist

Warranty:

- Against manufacturers defects
