

## » ADL Foot

### *Prosthetics Foot*

#### **Supplier:**

Dycor Prosthetics

#### **Features & Benefits:**

- Designed specifically for geriatric “community ambulators”
- Unprecedented weight reduction
- Lightest foot on the market — made with a polyethylene foot shell and thermoplastic internal componentry
- Simplistic design
- Flexible molded polypropylene keel and articulated ankle allows the patient to maintain a “non reactive” weight bearing foot during the weight bearing stance phase
- Low profile and medium profile options available

#### **Specifications:**

- Sizes: 22–29 cm
- Weight limit: 99kg (218lbs)
- Weight: 255g (9oz) (Based on a 25cm size foot)
- Keel stiffnesses: *Soft, Medium and Firm*
- Heel heights: 10mm (3/8") (Also available in 18mm [3/4"])
- Clearance: 76mm (3")
- Cosmesis: *Polyethylene foot shell*
- Foot shell height: 76mm (3")
- Activity level: *Low to Moderate (K1–K2)*

#### **Indications:**

- Geriatric amputees

#### **Contraindications:**

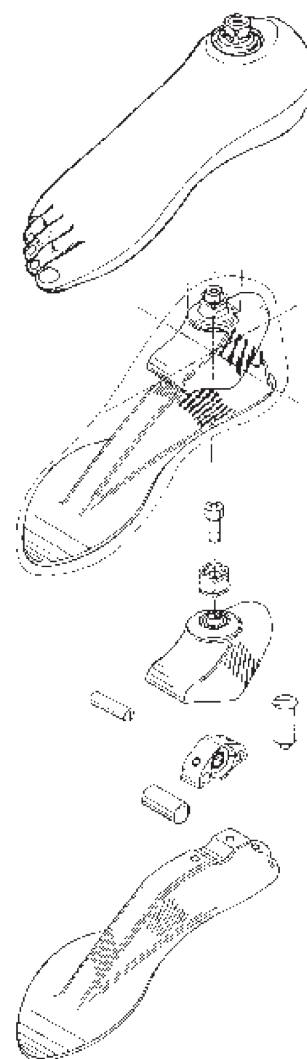

- Prolonged exposure to moderate activity

#### **Call Points:**

- Prosthetist
- Prosthetic technician

#### **Warranty:**

- One year, against manufacturers defects
