

King Pin™ Lock Knee Joint

Vendor:
Fillauer

Applications:

- Heavy duty locking knee joint

Patient Benefits:

- According to preference — release lever allows for finger-pull or bail rod
- Easy maintenance
- Alleviated stress at knee

Practitioner Benefits:

- Choice of 3/16" or 1/4" uprights in either stainless steel or aluminum

Features:

- Stainless steel construction
- Accepts 3/16" or 1/4" stainless steel or aluminum uprights
- Contained mechanism with self-lubricating plastic bearings keeps debris out
- Sleek appearance
- Improved durability

Specifications:

- Sold in pairs
- Kit includes: knee joints with lever and bail rod (12" bail rod on S/M and 15" bail rod on L/XL), uprights sold separately
- Stainless steel body with aluminum lever
- Weight: 6.7 oz / 189.9 g for S/M or 8.0 oz / 227 g for L/XL
- Patient weight limit: 275 lbs

Indications:

- Patients seeking additional strength and support for RGO applications or any other lower extremity orthotics
- Patients weighing less than 275 lbs

Contraindications:

- Patients over 275 lbs
- Patients with poor manual dexterity

Call Points:

- Orthotist

Warranty:

- 1 year
