

## » Female Passive Hand

### Passive Hand

#### Supplier:

Hosmer Dorrance Corporation (Fillauer)

#### Features & Benefits:

- Soft foam passive hand
- Passive hands have positionable flexible fingers
- Reinforced hands have wire fingers attached to wrist area
- Super-reinforced hands have steel bars in fingers that attach to wrist area
- Hard PVC Passive Hands are lightweight, cosmetically finished shells that slip over residual limbs (No glove required)

#### Specifications:

- Types: *Passive, Reinforced passive and Super-reinforced passive*
- Material: *Soft foam*
- Fingers: *Passive= Flexible fingers*  
*Reinforced= Wired fingers attached to wrist*  
*Super-reinforced= Stainless steel bars attached to wrist*
- Sizes: *178mm (7"), 191mm (7½"), 203mm (8"), 210mm (8¼"), 216mm (8½"), 222mm (8¾") and 229mm (9")*  
*(Refer to measurement chart for proper size)*
- Threads: *½–20 and M12 x 1.5mm*

#### Indications:

- Male transradial and transhumeral applications

#### Call Points:

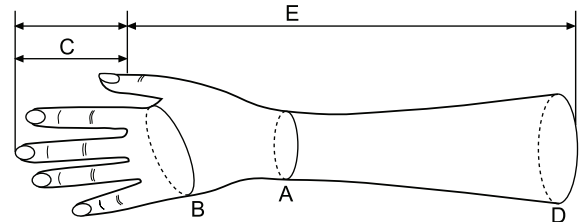

- Prosthetist
- Prosthetic technician

#### Warranty:

- Against manufacturers defects

Hosmer Cosmetic Glove Measurement Chart

- A. Wrist circumference
- B. Metacarpal circumference
- C. Middle finger length
- D. Glove end circumference
- E. Length of glove
