

## » Iceross® Dermo® Seal-In®

### Liner

#### Supplier:

Ossur Americas

#### Features & Benefits:

- Increased range of motion — Removes the restriction of a knee sleeve
- Superior ease of use — No sleeve to roll up — just step in and go
- Reduces shear forces
- Patented Hypobaric Sealing Membrane (HSM), made of high quality silicone, is incorporated into liner design
- Revolutionary suction technology maintains a good seal and accommodates volume reduction of residual limb

#### Specifications:

- Type: *Seal-In® Liner*
- Style: *Standard*
- Material: *DermoGel® silicone with Active Skin Care*
- Thickness: *3mm*
- Matrix length: *10cm*
- Sizes: *11 (see chart)*
- When fitting Seal-In liner, a one-way auto expulsion valve with push-button suction release must be used
- Supplex® cover has non-ravel stitching and superb abrasion tolerance

#### Indications:

- Lower to moderate activity users
- Suited for bony residual limbs

#### Call Points:

- Prosthetist
- Prosthetic technician

#### Warranty:

- Six months limited, against manufacturers defects
