

» Iceross® Sport

Liner

Supplier:

Ossur Americas

Features & Benefits:

- Dual layers of DermoSil™ provides stability while minimizing weight
- ARC System (Advanced Rotation Control) maximizes rotational stability of the prosthesis
- Patented Stabilizing Matrix prevents distal elongation and stabilizes soft tissue
- Ultra-strong and stretchable Supplex® outer cover from DuPont® provides extreme wear and tear strength
- Interchangeable distal attachment
- Double durometer design

Specifications:

- Type: *Locking Liner*
- Style: *Standard*
- Material: *DermoSil™ silicone with Supplex® cover*
- Thickness: *3mm*
- Matrix length: *10cm*
- Sizes: *11 (see chart)*
- Tapered from 7mm distally to 2.5mm proximally for increased flexibility
- 14.3mm thick distal end

Indications:

- High activity and athletic users

Call Points:

- Prosthetist
- Prosthetic technician

Warranty:

- Nine months limited, against manufacturers defects
