

## » Iceross® Synergy

### Liner

#### Supplier:

Ossur Americas

#### Features & Benefits:

- Firm silicone outer layer provides outstanding stability for active use
- Softer shock-absorbing inner layer nurtures the skin, offering superb suspension and comfort
- Iceross Wave feature makes the liner easier to flex at the knee
- Skin care ingredients are incorporated in the inner layer to help maintain healthy, strong skin
- White outer layer of stiffer silicone, incorporating menthol, is covered with a light grey supplex cover
- Double-layer silicone design: outer layer provides stability while inner layer heals and protects against impact
- Patented Stabilizing Matrix prevents distal elongation and stabilizes soft tissue effectively
- Supplex cover makes donning and doffing easier and enhances product durability

#### Specifications:

- Types: *Cushion and Locking Liner, with or without Wave feature*
- Style: *Standard*
