

## » Iceross® Upper-X

### Liner

#### Supplier:

Ossur Americas

#### Features & Benefits:

- Provides superb suspension, eliminating the need for auxiliary suspension, such as straps
- Only adds marginal bulk to the prosthesis, allowing for a much better cosmetic finish
- Full-Matrix outer cover that virtually eliminates pistoning while allowing radial stretch for volume accommodation
- Donning and doffing made easy with 'doughnut' rolling
- Suitable for pediatric use

#### Specifications:

- Type: *Locking Liner*
- Style: *Standard*
- Matrix length: *Full*
- Material: *DermoSil™ silicone with Active Skin Care*
- Thickness: *1mm*
- Sizes: *Six (see chart)*

#### Indications:

- Upper extremity amputees
- All activity levels

#### Call Points:

- Prosthetist
- Prosthetic technician

#### Warranty:

- Six months limited, against manufacturers defects
