

**Mauch® Knee Plus**  
**Hydraulic Knee**

**Supplier:**

Össur Americas

**Features & Benefits:**

- Single axis hydraulic knee system with swing and stance control (SNS®)
- The new cylinder attachment delivers a lower tolerance environment
- Extension stops added to the frame prevent hyperextension and increase the cylinder's lifetime
- State-of-the-art bearings contribute to smoother motion and increased durability
- Aluminum frame combines strength with an attractive new design
- Protected by rubber covers, front and back

**Specifications:**

- Weight: 1210 g
- Flexion: 125°
- Overall height: 210 mm (8¼")
- Aluminum frame
- Low resistance knee kits and swing knee kits are available through special order

**Indications:**

- Moderate to high activity/high repetitive impact
- Users up to 366 lbs (166 kg)

**Call Points:**

- Prosthetist
- Prosthetic technician

**Warranty:**

- 24 months limited, against manufacturer defects
