Pediatric Cervical Collar

Supplier:

Ossur Americas

Features & Benefits:

- Two-piece, innovative collar design exclusively for children 12 and under
- Sized according to the Broselow-Luten™ Color-Coding System to ensure optimal airway and upper cervical spine immobilization
- Front and back panels may be interchanged to accommodate patient anatomy
- Padded with Sorbatex™—washable, moisture wicking pads line all contact areas, allow for air circulation. Padding is antibacterial and anti-decubitus—protecting skin integrity during extended wear.
- Angulation buttons allows minor adjustments of chin support and occipital support for better pressure distribution
- Removable sternal pad to distribute pressure for ambulatory patients
- X-ray, CT and MRI compatible for optimum C-spine visualization
- Optional elasticized assist strap allows front of collar to remain in place and maintain critical flexion control
- Optional assist strap allows patient to apply collar independently or to free the hands of person applying collar
- Enlarged tracheal opening and wide rear vent give better access of anterior neck and trachea
- Velcro® pad attachments and closures for easy removal
- Longer retaining straps
- Latex free

Specifications:

- Materials: *Shell= Low density polyethylene*
Lining= Blue Sorbatex™
- Sizes: *0–6 months, 6 months – 2 years, 2–6 years and 6–12 years*
- Pads and shell can be cleaned using mild soap and water

Indications:

- Cervical spine immobilization
- Immobilization for pre and post c-spine surgery
- SCIWORA Syndrome
- Degenerative disorders
- Spinal Stenosis
- Spondylolisthesis

Contraindications:

- Use with multiple patients

Call Points:

- Emergency technician
- Medical doctor
- Physiotherapist
- Orthotist

Warranty:

- Against manufacturers defects
