

**Poron Medical 4708 Urethane Firm**

**Applications:**

- Ideal for cushioning applications and energy dispersion

**Patient Benefits:**

- Comfortable

**Practitioner Benefits:**

- Easily to process
- Adheres well without separation if abraded

**Features:**

- Excellent compression set resistance
- High resiliency
- Vibration damping and excellent impact absorption
- Fungal resistant
- Latex and P.V.C. free

**Specifications:**

- Density: 17 lb/ft<sup>3</sup>
- Specific gravity: 0.27
- Open cell urethane
- Durometer: 20
- Water absorption % weight gain: <20
- Tear strength: 1.8 kN/m
- Tensile strength: 90 psi

**Indications:**

- Cushioning
- Insoles
- Pressure point pads

**Call Points:**

- Orthotist
- Orthotic technician
- Pedorthist
