

## » 3-D Fabric

### Padding

#### Supplier:

Proteor

#### Features & Benefits:

- Lining for corsets and braces to reduce friction areas
- Special weave allows perspiration to wick away from skin and evaporate
- Fabric is easy to care for, soft and colorfasted
- Can be fixed in place using hooking material; best when using Micro Hook
- Easily washable at 40°C (104°F)
- Used without glue, the material complies with sustainable development policies and limits possible allergic reactions

#### Specifications:

- Materials: 54% Polyester  
34% Polyamide  
12% Polyurethane
- Thickness: 6mm (1/4")
- Colors: Black, White, Blue and Pink
- Width: 1,450mm (57")
- Length: Sold by one meter lengths
- When washing 3D Fabric, use only water less than 40° C (104° F)
- Best used with Micro Hook material (sold separately)

#### Indications:

- Padding for orthotic devices

#### Contraindications:

- Any application of heat in preparation of material

#### Call Points:

- Orthotist
- Orthotic technician

#### Warranty:

- Against manufacturers defects
