

## » PVA Bag

### *Poly-Vinyl Alcohol Film*

**Supplier:**

SPT Technology, Inc.

**Features & Benefits:**

- Double sealed, poly vinyl alcohol separator in various lamination techniques
- Tapered design accommodates ease of application and use of lamination materials
- When using the closed end model, installing a distal cap is unnecessary

**Specifications:**

- Models: *PVA Bag (open end)*  
*Closed End PVA Bag*
- Material: *Poly-Vinyl Alcohol*
- Thickness: *3 mil (.08mm)*
- Length: *PVA Bag= 1,020mm (40") and 1,300mm (51")*  
*Closed End PVA Bag= 1,020mm (40")*
- Proximal diameter: *PVA Bag= 51cm (20")\**  
*Closed End PVA Bag= 100mm (4"), 150mm (6"), 200mm (8"), 250mm (10"), 300mm (12"), 350mm (14") and 400mm (16")*  
*(\* Other diameters available; see chart for more information)*
- Distal diameters: *See chart for more information*
- Use over a dry cast or insert

**Indications:**

- Prosthetic and orthotic lamination applications

**Contraindications:**

- Some residual transtibial shapes

**Call Points:**

- Prosthetist
- Prosthetic technician
- Orthotist
- Orthotic technician

**Warranty:**

- Against manufacturers defects

*P.V.A. Bag (open end)*

*Closed End P.V.A. Bag*
